Skills & Interests

Programming: C/C++, Python, SQL, R Language

Platforms: AWS, Microsoft Azure, Hadoop, Docker

Tools: Tableau, MS Excel, Power BI, Git

Databases: MS SQL Server, SQLite, NoSQL, MongoDB

Soft Skills: Adaptability, Decision Making, Teamwork, Problem-solving, Attention to detail, Troubleshooting

Work Experience

Sparco Energy — Data Analyst

JANUARY 2024 – MARCH 2025

Remote | Solar Energy Unit

- Extensively utilizing Excel for thorough data analysis on revenue, sales, and inventory, offering crucial insights for strategic decision-making throughout the solar company.
- Utilizing Tableau to create interactive dashboards and visually compelling presentations, effectively conveying intricate data trends and patterns to stakeholders, thus aiding informed decision-making processes across departments.
- Through the combined analytical capabilities of Excel and the visualization tools of Tableau, significantly contributing to the company's growth, resulting in a noteworthy increase in overall revenue.
- Identifying optimization opportunities within company operations, leading to improved efficiency and cost savings, ultimately bolstering the company's competitive stance in the solar industry.

Gatestone & Co. Inc. — Technical Support Representative

MAY 2024 – FEBRUARY 2026

Edmonton, AB | Telecommunication Dept.

- Providing expert technical support and troubleshooting for a wide range of issues, including network, Internet, cable, satellite, digital phone, and computer problems, ensuring high levels of customer satisfaction by leveraging extensive knowledge and experience.
- Communicating clearly and effectively with customers to diagnose and resolve technical problems while meticulously documenting interactions for future reference and consistency among team members.
- Highlight and sell the features, advantages, and benefits of client products and services, contributing significantly to increased sales and enhanced customer loyalty through persuasive and informative communication.
- Identifying areas for improving customer service by analyzing feedback and metrics, providing insights to leadership, and enhancing support efficiency and experience.

Conestoga College — Research Analyst

JANUARY 2022 - APRIL 2022

Cambridge, ON | Conestoga SMART Centre

- Developed and implemented advanced visualizations and reports, facilitating clearer communication of research findings to the team and clients.
- Spearheaded the conceptualization and execution of innovative ideas for data collection and analysis, contributing to a 25% increase in the effectiveness of research projects.
- Acquired the skill set to articulate complex findings in a clear and concise manner. Successfully presented research insights in written reports and in-person presentations, resulting in a 20% increase in stakeholder understanding and engagement.
